

Deborah Pizzichillo

Web Developer
Artist & designer

PERSONAL PROFILE

I am a junior Web Developer interested in Front End and Back End languages. I'm curious and always eager to learn new skills and languages as I always want to be prepared for any challenge that will come my way. And the best way to prepare for that is to arm myself with knowledge and creativity.

People in my area describe me as a very creative person who likes to work together, listens well, works hard and likes to finish things well.
